

MEMORANDUM

To: Planning Commission

From: John R. Jackson, AICP, LEED-GA
Vidya Krishnan

Date: May 26, 2011

Subject: Master Plan Update – May 19 meeting notes

The results of the key issue identification exercise were presented and there was significant discussion regarding the following key issues.

- Provide attractive parking garages, as needed, with private partners in order to maintain a convenient and viable parking system. - 6
- Historic preservation and education – 4
- Infrastructure maintenance and improvements – 4
- Improve connection between Main Street and South Street – 4
- Encourage mixed uses – 3
- Provide development incentives for quality projects– 2

The committee determined that these issues should be combined with the issues identified at the March meeting. A brief description of each of these issues would be provided for discussion and presentation to the City Council.

The Committee determined it would form a working group that would review the goals and objectives from the previous master plan to determine which ones were still relevant. The working group would also formulate a vision statement for review by the committee to present to the City Council to provide an overall direction for the Master Plan update.

The Committee also requested a working schedule for the update process.
