IV. PLAN REVIEW REQUIRED

See below for plan review requirements before completing this section. Plans and specifications must be submitted when the wiring or alteration to an electrical system is over 400 amps and is in excess of 3,500 square feet in all buildings.

What is the rating of the service or feeder in ampere? _____

What is the building in square feet? _____

Have plans been submitted? YES NO NOT REQUIRED

Plans are required for all building types and shall be prepared by or under the direct supervision of an architect or engineer licensed pursuant to Act No. 299 of the Public Acts of 1980, as amended, and shall bear that architect's or engineer's signature and seal, except:

1. When the electrical system rating does not exceed 400 amps and the building is not over 3,500 square feet in area.
2. Work completed by a governmental subdivision or state agency costing less than \$15,000.00.

PLANS MUST BE SUBMITTED BEFORE A PERMIT CAN BE ISSUED.

V. HOMEOWNER AFFIDAVIT

I hereby certify the electrical work described on this permit application shall be installed by myself in my own home in which I am living or about to occupy. All work shall be installed in accordance with the State Electrical Code and shall not be enclosed, covered up, or put into operation until it has been inspected and approved by the City of Rochester Electrical Inspector. I will cooperate with the City of Rochester Electrical Inspector and assume the responsibility to arrange for necessary inspections

VI. APPLICANT SIGNATURE

Section 23a of the state construction code act of 1972, Act No. 230 of the Public Acts of 1972, being section 125.1523a of the Michigan Compiled Laws, prohibits a person from conspiring to circumvent the licensing requirements of this state relating to persons who are to perform work on a residential building or a residential structure. Violators of section 23a are subject to civil fines.

Signature of Licensee or Homeowner (Homeowner's signature indicates compliance with Section VI. Homeowner Affidavit)	Date

INSTRUCTIONS FOR COMPLETING APPLICATION

GENERAL: Electrical work shall not be started until the application for permit has been filed with the City of Rochester Building Department. All installations shall be in conformance with the State Electrical Code.
No work shall be concealed until it has been inspected.

City of Rochester Building Department's telephone number will be provided on the issued permit. Please call at least 24 hours in advance when ready for inspections at 248-651-9061.

EXPIRATION OF PERMIT: A permit remains valid as long as work is progressing and inspections are requested and conducted. A permit shall become invalid if the authorized work is not commenced within six months after issuance of the permit or if the authorized work is suspended or abandoned for a period of six months after the time of commencing the work.

A PERMIT WILL BE CANCELLED WHEN NO INSPECTIONS ARE REQUESTED AND CONDUCTED WITHIN SIX MONTHS OF THE DATE OF ISSUANCE OF THE PERMIT OR WITHIN SIX MONTHS OF THE DATE OF A PREVIOUS INSPECTION. CANCELLED PERMITS CANNOT BE REFUNDED OR REINSTATED.

FOR OFFICE USE ONLY

GENERATOR INSTALLATION INFORMATION

The City of Rochester does not have an ordinance that controls the location of generators on private property (residential). The City does however ask that you be neighbor friendly when installing a generator on your property.

Noise generated from these machines can and does bother your neighbor, so PLEASE be considerate when choosing a location.

Please be aware that some Homeowner Associations within the City do however have regulations for the placement of generators. Please check with your Association before you install your generator to insure compliance with these regulations.

Thank you

Sid Browne Jr.

Building Official

Date: March 1, 2016

Dear Valued DTE Electric Company partner,

Beginning March 1st all new, upgraded or relocated DTE Electric Company residential service lines must be installed underground. On Dec. 11, 2015, the Michigan Public Service Commission approved tariff language implementing these new provisions. The tariff language reads: *“All new, relocated or upgraded residential service connections will be installed as underground residential service laterals at the customer’s expense.”* Exceptions may be permitted by DTE Electric Company for loads of a temporary period or if found impractical to be built. These changes are effective and will be reflected on DTE Electric Company’s ESIG webpage on March 1, 2016.

It’s important that both builders and residential customers understand that overhead service lines cannot be installed after March 1 and that all residential service lines will be installed underground. Please communicate this information within your organization to ensure the awareness of this change. For new/upgraded services, please have residential customers call DTE Electric Company at 1-800-338-0178.

Sincerely,

DTE Electric Company
